Hurrah for Senator Tillman! He  
has knocked Crum clean out of the box.

We will have to let Japan do as  
she pleases over here or give her a  
thrashing sooner or later.

We congratulate Charleston on the  
defeat of Crum. We feel satisfied  
that President Taft will not name  
him again for the place.

"If Senator Tillman has his way  
there will be a little Crum of dis-  
comfort left over for the Taft ad-  
ministration," says the Washington  
Post.

No doubt Crum's defeat made Ted-  
dy furious, but as the old lady said  
to the eel she was skinning, "It's  
painful, but he will have to grin and  
bear it."

It seems to us that Mr. Lide's  
bill referring the liquor question to  
the people to decide is about the  
best disposition that could be made  
of this matter.

An exchange says there are two  
reasons why some people don't mind  
their own business. One is that they  
haven't any mind, and the other is  
that they haven't any business.

The Legislature will soon be a  
thing of the past, so far as this  
year's session is concerned. It has  
been a very conservative body, and  
does not seem disposed to do rash  
things.

If the people should vote to con-  
tinue the present liquor law you  
would see a wonderful face about  
on the part of some of the politi-  
cians who are now posing as prohi-  
bitionists.

The News and Courier is unstint-  
ed in its praise of Senator Tillman  
for his magnificent and successful  
fight on Crum. It gives him entire  
credit, both in its news and editorial  
columns, for shelving Crum.

Two white men have been convict-  
ed of murder and sentenced to life  
imprisonment in South Carolina in  
the last ten days. Let the courts  
keep this up, and we will have few-  
er murders in South Carolina.

Is the good feeling between Eng-  
land and Japan cooling off? There  
are signs that it is. Japan was only  
using England to advance her inter-  
ests, and she now thinks she can  
go it alone and wants to cut lose  
from England.

Our young friend, L. H. Wanna-  
maker, Jr., seems to be making good  
with The News and Courier. His  
report of the Jones murder trial was  
all right, and we are sure that The  
News and Courier will find him a  
handy man to have around.

The four South African British  
colonies have at last formed a fed-  
eration much like that of Australia.  
That these colonies, which were at  
deadly war with each other less  
than a decade ago, are now working  
harmoniously together is a great tri-  
umph for freedom and representa-  
tive government.

A writer contends that gossip in  
the country villages is not nearly so  
prevalent as it is in the so-called  
best social circles in the cities—nor  
it is so vicious. The unkind word,  
the slanderous word, the character-  
assassinating word, make up a deal  
of the small talk of people of small  
minds and corrupt natures.

The News and Courier says "Sen-  
ator Tillman has placed all the peo-  
ple of Charleston, white and black,  
and of the State and the South, un-  
der great obligations to him for his  
splendid fight against the confirma-  
tion of Dr. Crum to be collector of  
Customs at Charleston." That is  
true. The defeat of Crum means  
much to the entire South.

Young Craft, who was sentenced  
to life imprisonment by Judge Dantz-  
ler for killing a fellowman at the  
recent term of the Lexington court,  
is only twenty-six years of age.  
What a prospect for a young man.  
He is said to be an intelligent, well  
connected young fellow, too. What  
a lesson his sad fate should be to  
others.

When a man pursuing the daily  
peaceful avocations of life goes  
around with a revolver on his person,  
it is prima facie evidence that he  
takes a wrong view of life. Why  
should he carry around a pistol  
among respectable and peaceable  
people? Pistol toting has gotten  
many a man in trouble. So young  
man, leave off the habit if you are  
addicted to it.

## Deadly White Plague.

Very few of us know what fear-  
ful inroads consumption is making  
in the human family. One million  
and a half people die every year in  
the world from it. Nearly two  
hundred thousand people are taken  
off by it each year in the United  
States. In this country more col-  
ored people in proportion die  
from it than white people. Some  
of the statistics published about the  
dreadful disease are alarming.  
For instance, in 11,592 cases exam-  
ined in metropolitan hospitals, 8,731  
or 75 3-10 per cent showed tuber-  
cle bacilli in their sputum, and only  
2,861 or 24 7-10 per cent showed  
no presence of the germ. If the  
ravages of the disease are not stopp-  
ed it bids fair to become universal  
among the human family.

As evidenced in 12,872 cases un-  
der observation at the same time,  
the classification as to the severity  
of consumption is as follows: Early  
stage, 950 or 7 4-10 per cent; more  
advanced stage, that is, active chills,  
fever and sweat, 5,486, or 42 6-10  
per cent; advanced stage, in which  
there is still hope for final recovery,  
5,351, or 41 5-10 per cent; absolu-  
tely hopeless cases, 1,085, or 8 5-10  
per cent. Thus it will be seen that  
81 5-10 per cent of all cases of tuber-  
culosis can be cured if taken in  
hand, under modern methods.

The international classification as  
to causes of death from all diseases,  
per 100,000 is as follows:  
Tuberculosis . . . . . 169.9  
Pneumonia . . . . . 126.2  
Heart disease . . . . . 124.9  
Diarrhoea and enteritis . . . 109.8  
Apoplexy . . . . . 70.0  
Cancer . . . . . 68.3  
Bronchial pneumonia . . . 38.1  
Typhoid . . . . . 32.2  
Diphtheria and croup . . . 29.7  
Menigitis . . . . . 23.4  
Convulsions . . . . . 22.6  
Acute bronchitis . . . . . 21.5

## Regular Teddy Trick.

Several days ago the following  
letter was made public from the  
White House by the ever faithful  
Loeb:

Los Angeles, Cal.  
The President, U. S. A., Washing-  
ton, D. C.

Dear Sir: My daughter, Miss  
May Rhodes, whose horse, it has  
been widely reported, you struck  
while riding in the park last Thanks-  
giving Day, most emphatically de-  
nies any knowledge of such an oc-  
currence, and as it is deemed of such  
importance as to be referred to in  
congress, may I be permitted to ask  
you why you do not deny this story.

Very sincerely,  
ELIZABETH M. RHODES.

The Anderson Mail says the mat-  
ter referred to by the writer of this  
letter was the publication of a story  
that the president while riding in  
Rock Creek Park on Thanksgiving  
Day had resented the action of a  
party of young women from the For-  
est Glen Seminary in passing him  
on the road. The president and  
the young women were on horseback,  
and the report was circulated that  
the president had in anger struck  
the horse of one of the girls with  
his riding crop, at the same time  
rebuking the girl severely for rid-  
ing by him. The Washington rep-  
resentatives of the New York Sun  
called on the principal of the Forest  
Glen Academy and asked her about  
the letter. She replied that Miss  
Rhodes was not a member of the  
riding party in Rock Creek park  
last Thanksgiving Day.

## "On to Richmond."

Senator Bacon, of Georgia, has  
suggested that the proposed Lincoln  
memorial highway should extend  
from Washington to Richmond rather  
than from Washington to Gettys-  
burg, as has been planned. We  
agree with the Columbia Record that  
Mr. Bacon's suggestion is eminently  
proper and is in accord with the  
"eternal fitness of things." The cap-  
ital of the United States and the  
capital of what was once the South-  
ern Confederacy thus bound togeth-  
er by such a highway would not only  
be a most striking memorial to the  
man whose consuming desire was to  
see the union restored, but it would  
be an enduring monument of the fact  
of such a restoration, freed of all  
the misunderstandings and bitter-  
nesses that provoked separation and  
a fratricidal war. The building of  
a Lincoln highway from Washington  
to Richmond would be an "On to  
Richmond" march in a sense en-  
tirely different from what that cry  
meant in the sixties. Then it meant  
war, the shedding by kinsmen of  
kinsmen's blood; now if haply this  
peaceful move on Richmond is made,  
it means for coming generations the  
tangible sign of a new order of  
things—union in the bonds of frat-  
ernal love, peace, and a joyous  
common destiny. So, we say, "On  
to Richmond" with the Lincoln mem-  
orial road.

## A Poorly Played Farce.

They have a queer kind of prohi-  
bition over in Georgia. Near beer  
seems to have taken the place of  
whiskey and other intoxicants that  
use to be sold in the barrooms be-  
fore the State was voted dry. The  
Atlanta Journal says J. P. Wilson  
was recently placed on trial before  
the city recorder for raising a dis-  
turbance in a saloon at one o'clock  
in the morning and refusing to go  
home. He said he drank about forty  
or fifty bottles of this near beer  
and that he did not know what he  
did after drinking so much beer, as  
it made him about as drunk as any  
whiskey that he ever tried before.  
The prohibition law went into effect.  
We see just such cases as the above  
frequently reported in the Georgia  
daily newspapers, which shows that  
prohibition over in Georgia is a very  
poorly played farce. They seem to  
have saloons in which intoxicants  
are sold and men fight and brawl

worse than they use to do in the  
days of the old barrooms. Why is  
this so? Simply because prohibition  
was forced on the people of Georgia  
before they were ready for it. We  
hope our Legislature will look into  
this question and not repeat the blun-  
der made over in Georgia.

## Bronchial Trouble.

Miss Harriet Johnson, 124 Lark St.,  
Albany, N. Y., writes:

"I had bronchial trouble for some  
months and nothing did me any good  
until I took Peruna, which I took for  
three months. I felt in much better  
health in every way after I had used it  
six weeks.

"My throat had always been an annoy-  
ance to me, and each cold would aggra-  
vate the trouble, but since I took Peru-  
na I have not had a bit of trouble with  
my bronchial tubes, and as this was  
many months ago, I feel that it will not  
return."

## Catarrh of Head.

Mrs. J. M. Hitchcock, Newport, Wash.,  
writes: "I must now tell you how well  
I am, and thank you for your kind advice  
and the interest you have taken in me.

"My ears are entirely well. My head  
feels better than it had for years before.  
I don't have headache any more and my  
eyes are clear and bright, and I feel that  
my health is better in every way. The  
disagreeable symptoms were all gone  
before I had taken Peruna three weeks.

"I will answer any letters that may  
come to me. Peruna was a great help  
to me, and if I can be the means of help-  
ing any one else I will try and do what  
I can."

Those who object to liquid medicines  
can now obtain Peruna Tablets, which  
represent the solid medicinal ingredi-  
ents of Peruna.

## MRS. LENA O'BYRNE.

Mrs. Lena O'Byrne, 626 Madison St.,  
Topeka, Kan., writes:

"We have used Peruna in our house-  
hold for a good many years. I took it for  
coughs and colds, and my daughter,  
Mary, was cured of catarrh of the head  
by Peruna. It certainly is a medicine  
of unquestioned merit."

"I also give it to my children for  
coughs and colds, and my daughter,  
Mary, was cured of catarrh of the head  
by Peruna. It certainly is a medicine  
of unquestioned merit."

## "A Healthy Woman To-Day, Thanks to Pe-ru-na."

Mrs. L. A. Gray, 137 Main St., Menasha, Wis., writes:

"I was troubled with catarrh of the head and throat for so many years  
that I thought there was no cure for it, and that I would have to go on suffer-  
ing to the end of my days.

"When I caught cold my head and throat would be so stopped up that I  
could hardly breathe, and there was a dropping in my throat which was very  
nauseating, and made my breath bad and my stomach all out of order.

"Mother suggested that I try Peruna, as she knew of some people who  
had used it with beneficial results.

"I bought a couple of bottles and decided to see what it would do for me.

"I did not take many doses before I knew I had the right medicine, and
